'Adventures Unlimited' reprint of Long out-of-print, Cramp's classic book on flying saucer propulsion and suppressed technology is available again. Cramp wrote *Space, Gravity and the Flying Saucer* in 1954 and was Vice-President of the British UFO Research Association (BUFORA). *UFOs & Anti-Gravity: Piece for a Jig-Saw* is a highly illustrated and technical look at the UFO phenomena by a trained scientist. Cramp first introduces the idea of "anti-gravity" and introduces us to the various theories of gravitation. He then examines the technology necessary to build a flying saucer and examines in great detail the technical aspects of such a craft. Cramp's book is a wealth of material, including diagrams on flying saucers, anti-gravity, suppressed terminology, G-fields and UFOs. Chapters include Crossroads of Aerodynamics, Aerodynamic Saucers, Limitations of Rocketry, Gravitation and the Ether, Gravitational Spaceships, G-Field Lift Effects, The Bi-Field Theory, VTOL and Hovercraft, Analysis of UFO photos and claims, plus more.
