

Euroscepticism in Turkey

It appears self-evident in Turkey that the European Union is the final destination that the country is moving towards. Membership of the EU is seen as the last. Turkey's relationship with the European Union (EU) has a long history that reaches back to its application for associate membership in the European Economic Community (EEC) in July and the resulting Ankara Agreement in 1963. There are more than enough reasons for the growing Euroscepticism in Turkey. Some sensitive European issues like enlargement to Turkey still reflect it. But what about Euroscepticism from the other side among Turkish? The article concludes that the rise of euroscepticism in Turkish political arena has been developed as a firm reaction to the increasing. In recent years, there has been a growing academic interest in understanding the extent and determinants of Euroscepticism among the non-Europeans.
