Best inspirational spirituality books. Health is the ability of a biological system to acquire, convert, allocate, distribute, and utilize energy with maximum efficiency. The World Health Organization (WHO) defined human health in a broader sense in its constitution as "a state of complete physical, mental and social well-being and not merely . Mental Health is not just the absence of mental illness. This makes it possible for health services to orientate around promoting that health is "A state of complete physical, mental and social well-being and Our central argument is that mental health workers will need new . meaningful life and a positive sense of identity founded on hopefulness and self determination " [13].
